Patent No.: 6,815,420

Issued: November 9, 2004

For: Methods of Using Chemokine Beta-6

**REQUEST FOR RECONSIDERATION OF PATENT TERM ADJUSTMENT  
UNDER 37 C.F.R. § 1.705(d)**

MS Petition  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Patentees hereby request reconsideration of the patent term adjustment (PTA) indicated on the face of U.S. Patent No. 6,815,420 B2 (the '420 Patent), and in the PAIR data for this patent. In particular, both the patent document and PAIR indicate 0 days of patent term adjustment, but Patentees are due at least 78 days, and as much as 149 days, of PTA as described more fully below.

This request is being timely filed under 37 C.F.R. § 1.705(d), as it is being submitted less than two months after the issue date (November 9, 2004). The requirements of 37 C.F.R. § 1.705(b)(1) are satisfied by the Fee Transmittal Sheet enclosed herewith, authorizing payment of the fee set forth in 37 C.F.R. 1.18(e). The requirements of 37 C.F.R. § 1.705(b)(2) are satisfied by the following statements, as supplemented by the attached Exhibits.

**Eligibility for PTA**

1. The application that matured into the instant patent (the '967 Application) was filed on January 25, 2002, and was thus eligible for patent term adjustment under 35 U.S.C. § 154.

12/23/2004 SFELEKE2 00000208 083425 6815420

01 FC:1455 200.00 DA

## **Correct PTA, Basis Therefore, and Relevant Dates**

2. The issue fee for the '967 Application was paid on February 13, 2004. Although the Office later issued a new requirement as discussed below, all outstanding requirements had been satisfied at the time the issue fee was paid. The Office failed to issue the '420 Patent within the four month time frame allowed under 35 U.S.C. § 154(b)(1)(A)(iv) and 37 C.F.R. § 1.702(a)(4). Instead, the '420 Patent issued on November 9, 2004. The Patent Term Adjustment History screen of the PAIR system (attached as Exhibit A) properly indicates a PTO delay for a period of 149 days for this period. Thus, Patentees are entitled to a patent term adjustment of 149 days due to the Patent Office's delay, subject to any reductions. The PAIR system shows two reductions of PTA, discussed in more detail below. Patentees respectfully submit that these reductions have been made erroneously.
3. The issue fee for the '967 Application was paid on February 13, 2004 by the hand delivery of an executed Form PTOL-85 (Fee(s) Transmittal), a proper Fee Transmittal (Form PTO/SB/17), and a transmittal letter. Copies of these documents, and of the date-stamped return receipt card indicating the receipt thereof by the PTO on February 13, 2004, are attached as Exhibit B.
4. On April 29, 2004, the Office mailed a "Notice of Drawing Inconsistency with Specification." The Notice indicated that Figures 11C-D were contained in the drawings, but not listed in the Brief Description of the Drawings in the specification. A one-month period for reply was set.
5. On May 27, 2004, Patentees responded to the Notice by filing an amendment to the description of Figure 11. This amendment made pursuant to the procedure set forth in 1280 O.G. 918 (March 23, 2004), and was not an amendment under 37 C.F.R. § 1.312. Accordingly, the PAIR entry for this filing describing it as an "Amendment after Notice of Allowance (Rule 312)" is incorrect.
6. On August 5, 2004, the Office mailed a response indicating that the amendment made on May 27, 2004 was accepted. This response erroneously stated that it was

a “Response to Rule 312 Communication;” the response was entered under this name in the PAIR records.

7. The ‘420 Patent issued on November 9, 2004.

**Summary of Relevant Dates**

Issue Fee Payment	February 13, 2004
Notice of Drawing Inconsistency	April 29, 2004
Response to Notice (Amendment)	May 27, 2004
Office Response	August 5, 2004
Issue Date	November 9, 2004

**Terminal Disclaimer**

8. The instant application is not subject to a terminal disclaimer.

**Efforts to Conclude Processing or Examination**

9. As noted above, the PAIR records indicate two reductions in PTA for this patent, presumably due to alleged failures to engage in reasonable efforts to conclude prosecution of the application.
10. The first reduction, for 104 days, is shown between entries for “Miscellaneous Incoming Letter” (February 13, 2004) and “Amendment after Notice of Allowance (Rule 312)” (May 27, 2004). However, no paper other than those attached as Exhibit B was filed on February 13, 2004. According to M.P.E.P. § 2732, the filing of Form PTOL-85 is not a failure to engage in reasonable efforts to conclude prosecution. Patentees respectfully submit that the inclusion of a transmittal letter and Form PTO/SB/17 with Form PTOL-85 cannot constitute “a failure to engage” under 37 C.F.R. § 1.704(c)(10), as these documents are merely ancillary to the submission of Form PTOL-85. Moreover, Patentees note that this cannot be the

Office's intention, as it would result in PTA reductions for a routine paper filed in many, if not most, applications. Nor are such reductions routinely made by the Office, based on a review of the PTA data for several other issued patents. Thus, Patentees respectfully request that the 104 day reduction in PTA due to papers sent February 13, 2004 be reconsidered and withdrawn.

11. The second reduction, for 71 days, is shown for the "Amendment after Notice of Allowance (Rule 312)" entry made on May 27, 2004; although the PAIR data does not indicate the stop point of this period, it appears to be the "Mail Response to 312 Amendment (PTO-271)" entry (August 5, 2004). As discussed in paragraph 5 above, the May 27, 2004 filing was an amendment made in response to the Notice of Drawing Inconsistency.
12. The paper filed on May 27, 2004 should not be considered a "failure to engage" for at least two reasons. First, this paper was filed in response to a requirement of the Office made on April 29, 2004, and the response was filed within three months. Thus, under 37 C.F.R. § 1.704(b), no PTA reduction should be made for this filing. Second, the paper was not a "312 Amendment", but instead was filed pursuant to the procedure set forth in 1280 O.G. 918 (March 23, 2004). Moreover, even though this paper was filed after a notice of allowance was mailed, it was not required by the Office until April 29, 2004. Thus, no PTA reduction under 37 C.F.R. § 1.704(c)(10) should be made as a result of this filing.
13. Other than the circumstances described above, there have been no circumstances that could reasonably be construed as a failure to engage in reasonable efforts to conclude processing or examination of this application.
14. Presuming that both of the above-described reductions currently shown in PAIR were improperly made, the correct PTA should be 149 days.
15. If the Office holds that the paper filed on May 27, 2004 constituted a "failure to engage," then 71 days of PTA reduction would be applied (from May 27, 2004 to August 5, 2004) under 37 C.F.R. § 1.704(c)(10), yielding a total PTA of 78 days.

## CONCLUSION

Patentees respectfully request that the PTA for the instant application be reconsidered in light of the facts and circumstances described above. In particular, Patentees maintain that the instant application is entitled to at least 78 days, and as much as 149 days, of PTA.
